

Klemmenkasten PRO-line MBX

Productgroep: [69] Multibox

Uitvoering MBX PRO is one of the most durable standard plastic enclosures on the market, specifically designed for use in industrial and outdoor applications. The 10 sizes are compatible with the well-known standard aluminium enclosures.

Dust, water, heat, cold or mechanical shocks are no problem! The 10 enclosure types are produced from a newly developed impact-resistant and weather-resistant polycarbonate material in colour silver-grey RAL 7001, which meets self-extinguishing levels according to UL94V-0/5VA. The cover screws are made of stainless steel. The MBX PRO series is superior to all aluminium enclosures, especially in applications with an increased risk of corrosion.

With a seamlessly foamed 2-component polyurethane gasket, all types achieve protection class IP69. The enclosures can easily withstand high pressure water jets, steam jet cleaning or short-term flooding. They are therefore ideally suited for use in vehicle construction, agricultural engineering, plant construction and other high risk corrosion areas. In addition, the enclosures meet the requirements of DIN EN 45545-2 for railway applications.

UL 94V-0/5VA
